

**Declaration on the REACH Regulation (EC)  
no. 1907/2006****Wölfel Motoren GmbH**  
Industriestraße 14  
49082 Osnabrück  
Germany**Managing Director:**  
Yorck H. Richter**Osnabrück, 3 January 2023**

As a globally active company, we at Wölfel Motoren GmbH consider the sustainable protection of the environment and natural resources as well as the protection of human health as our obligation. In this context, on 18 December 2006, the European Parliament and the Council of the European Union adopted the Regulation (EC) 1907/2006 (Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), for establishing a European Chemicals Agency). Together with their following changes, a legal framework for the handling of chemical substances is given.

We familiarized ourselves early with the requirements of the Regulation (EC) 1907/2006 in the current version and we are to be regarded as a "downstream user". Our products, three - phase AC motors (electric motors), are therefore classified as products.

The objects of the declaration are three - phase AC motors (electric motors) of the series:

D..., OD..., SD..., SOD..., MD..., MOD..., MSD..., MSO...

The object of the declaration described above is in conformity with the requirements of the Regulation (EC) 1907/2006 in the current version and contains no substances (SVHC: Substances of Very High Concern) with particularly worrying properties in mass fractions above 0.1%. We will continue to monitor the latest developments in reducing pollution in order to maintain and steadily improve the quality of our products.
